
MEETING AGENDA

Carters Creek Watershed Assessment Project Update

June 1, 2015
10:00 AM – 12:00 PM

City of College Station Utilities
Meeting and Training Facility Auditorium
1601 Graham Road
College Station, Texas

The purpose of the meeting is to update watershed stakeholders on water quality monitoring completed and planned through the “Carters Creek TMDL Implementation” project. An overview of water quality data observations to date will be provided and a discussion of their implications will be held. Plans for future monitoring to be conducted this summer and its purpose will be discussed. Work to investigate water quality and develop a watershed protection plan on the Navasota River will be discussed. The implementation table from the Carters Creek TMDL I-Plan will also be updated.
